# Introduction

Hi, I'm Ganna Ahmed

**Data Analyst | Turning Data into Insights**

I'm a passionate Data Analyst and Computer Science & Artificial Intelligence student who enjoys transforming raw data into meaningful insights that support smarter business decisions.

With hands-on experience in Excel, SQL, Power BI, and Python, I work on data cleaning, analysis, visualization, and interactive dashboard development to uncover trends, track performance, and solve business problems.

**My goal is** to turn complex data into clear, actionable insights that help businesses understand their performance, identify opportunities, and make data-driven decisions.

Welcome to my portfolio, where data meets insights and every project tells a story!

# About Me

I am a Computer Science and Artificial Intelligence student with a strong interest in Data Analysis and Business Intelligence. I enjoy exploring data, discovering patterns, and transforming raw information into meaningful insights that help solve real-world business problems.

I have developed practical skills in Excel, SQL, Power BI, Python, Power Query, and DAX, which I use to clean, transform, analyze, and visualize data. Through my projects, I have gained experience in building interactive dashboards, analyzing business performance, tracking KPIs, and presenting findings in a clear and effective way.

I believe that data analysis is more than just working with numbers; it is about asking the right questions, understanding business needs, and turning insights into actionable decisions.

I am continuously learning and improving my analytical and technical skills, with the goal of delivering data-driven solutions that create real value for businesses and clients.

# Vision

To become a skilled Data Analyst who transforms complex data into valuable insights, helping businesses make smarter decisions, discover new opportunities, and achieve sustainable growth.

# Mission

My mission is to transform raw data into clear, actionable insights through data cleaning, analysis, and visualization. I aim to deliver effective dashboards and data-driven solutions that help businesses understand their performance and make informed decisions.

# Education

## Beni-suef National University

Bachelor's Degree in Computer Science and Artificial Intelligence

Currently pursuing my degree, developing a strong foundation in computer science, programming, problem-solving, and data analysis.

# Skill

## Data Analysis & Visualization

- Data Cleaning & Data Transformation
- Exploratory Data Analysis (EDA)
- Data Visualization & Reporting
- KPI Tracking & Performance Analysis

## Technical Skills

- Microsoft Excel
- SQL
- Power BI
- Python
- Pandas & NumPy
- Power Query

# Experience

## Adidas Sales Analysis Dashboard

Power BI Project

Cleaned and transformed sales data using Power Query, then analyzed sales performance, product trends, and regional results through interactive visualizations.
